Publication Data:

Title: The Universal Stock Register of Eastern Oregon Brands. Together With the Laws of the State of Oregon, Relating to the Branding and Marking of Stock;

Author: Bolin, William J. [From Old Catalog]

Reprinted: 2010, General Books, Memphis, Tennessee, USA

Original Publisher: Union, Or., L. J. and M. F. Davis;

Publication date: 1890;

Subjects: Cattle brands;

How We Made This Book for You

We made this book exclusively for you using patented Print on Demand technology.

First we scanned the original rare book using a robot which automatically flipped and photographed each page.

We automated the typing, proof reading and design of this book using Optical Character Recognition (OCR) software on the scanned copy. That let us keep your cost as low as possible.

If a book is very old, worn and the type is faded, this can result in numerous typos or missing text. This is also why our books don't have illustrations; the OCR software can't distinguish between an illustration and a smudge.

We understand how annoying typos, missing text or illustrations, foot notes in the text or an index that doesn't work, can be. That's why we provide a free digital copy of most books exactly as they were originally published. You can also use this PDF edition to read the book on the go. Simply go to our website (www.GeneralBooksClub.com) to check availability. And we provide a free trial membership in our book club so you can get free copies of other editions or related books.

OCR is not a perfect solution but we feel it's more important to make books available for a low price than not at all. So we warn readers on our website and in the descriptions we provide to book sellers that our books don't have illustrations and may have numerous typos or missing text. We also provide excerpts from books to book sellers and on our website so you can preview the quality of the book before buying it.

If you would prefer that we manually type, proof read and design your book so that it's perfect, simply contact us for the cost. Since many of our books only sell one or two copies, we have to split the production costs between those one or two buyers.

Frequently Asked Questions

Why are there so many typos in my paperback?

We created your book using OCR software that includes an automated spell check. Our OCR software is 99 percent accurate if the book is in good condition. Therefore, we try to get several copies of a book to get the best possible accuracy (which is very difficult for rare books more than a hundred years old). However, with up to 3,500 characters per page, even one percent is an annoying number of typos. We would really like to manually proof read and correct the typos. But since many of our books only sell a couple of copies that could add hundreds of dollars to the cover price. And nobody wants to pay that. If you need to see the original text, please check our website for a downloadable copy.

Why is the index and table of contents missing (or not working) from my paperback?

After we re-typeset and designed your book, the page numbers change so the old index and table of contents no longer work. Therefore, we usually remove them. We dislike publishing books without indexes and contents as much as you dislike buying them. But many of our books only sell a couple of copies. So manually creating a new index and table of contents could add more than a hundred dollars to the cover price. And nobody wants to pay that. If you need to see the original index, please check our website for a downloadable copy.

Why are illustrations missing from my paperback?

We created your book using OCR software. Our OCR software can't distinguish between an illustration and a smudge or library stamp so it ignores everything except type. We would really like to manually scan and add the illustrations. But many of our books only sell a couple of copies so that could add more than a hundred dollars to the cover price. And nobody wants to pay that. If you need to see the original illustrations, please check our website for a downloadable copy.

Why is text missing from my paperback?

We created your book using a robot who turned and photographed each page. Our robot is 99 percent accurate. But sometimes two pages stick together. And sometimes a page may even be missing from our copy of the book. We would really like to manually scan each page. But many of our books only sell a couple of copies so that could add more than a hundred dollars to the cover price. And nobody wants to pay that. If you would like to check the original book for the missing text, please check our website for a downloadable copy.

Limit of Liability/Disclaimer of Warranty:

The publisher and author make no representations or warranties with respect to the accuracy or completeness of the book. The advice and strategies in the book may not be suitable for your situation. You should consult with a professional where appropriate. The publisher is not liable for any damages resulting from the book.

Please keep in mind that the book was written long ago; the information is not current. Furthermore, there may be typos, missing text or illustration and explained above.

THE UNIVERSAL STOCK REGISTER OF EASTERN OREGON BRANDS. TOGETHER WITH THE...

FROM THE LAWS OF OREGON 1954. 706, No two persons residing within fifteen miles of each other shall use the same mark or brand in this state, but in such cases the person having the oldest recorded mark shall have the preference, but nothing contained herein shall prevent the parties from agreeing which of them shall change his mark or brand; and any person offending against the provisions of this section shall, upon conviction before a Justice of the peace of the proper county, be fined for each offense in any sum not to exceed five dollars.

1955. It shall hereafter be unlawful for any person, in marking Domestic Animals on the ear, to cut, mark, or remove any part exceeding one-half of the ear.

1956. Any person wilfully violating the first section of this act shall, on conviction of the same, be fined not less than five nor more than one-hundred dollars, or imprisonment not less than five nor more than fifty days in the County Jail, or both fine and imprisonment, in the discretion of the court. All Justices of the Peace shall have jurisdiction over the foregoing offenses.

BV LAWS.

It shall be the duty of every member of this Association to notify any member, of his stock if he sees or knows of them being out of their range, he can notify by postal card and oblige
